item no. for castors = RO
(upcharge)

Accessories

LED
LED lighting incl. motion
sensor in white daylight,
warm white or blue.
not available with ME55,
G70 and G140

Flexible back support

The items can be equipped with a step-by-step headrest function for an upcharge (except armchair ME 55). Item no. = KV1, KV2, KV3.

**Extendible lying surface**

Some items can be fitted with the seat extension in return for an upcharge. The total depth extends. The sensor touch button is located in the middle under the back cushion. Item no. = A02.

**LED-lighting**

Every item (except ottomen and armchairs) can be equipped with a LED-lighting at the bottom. It is available with the colours white daylight, warm white or blue. **Please indicate when ordering.**

**Noble armpart frame**

The leg frame can be ordered in solid oak or walnut for no upcharge (item no. = NU, EI).

**Castors for ottomen**

The ottomen can be equipped with castors for upcharge. Two of the castors can be fixed. Thus a comfortable, big couch surface arises.

**Order information****LED-lighting:**

The LED-lighting is fixed at item's lower front. At the one arm chaises and corner sofas it is fixed at the lower connecting side as well as at the enlarged seat/at the ottoman. At the left lower front of the furniture there is a motion sensor that turns the light on or off. The LED-lighting is available in the colours white daylight, warm white or blue.

Please indicate the colour when ordering! Die LED lights are not available for the armchair and the ottomen.

Extendible lying surface:

The sensor touch button for the seat extension by motor is located in the middle under the back cushion.

Solid wood armpart frame:

Wood is a long-lasting natural product. Different colours at the massive wooden parts may occur and are a special characteristic of this product. Massive wood cannot be processed with a regularly appearance. Differences between colour and structure cannot be avoided and do not authorize a complaint.

Back sides of sofas:

All pieces are genuinely upholstered at the back.

Positioning diagram:

Please send us a positioning diagram, depending on the many different variations available. We have marked the connecting sides in red for end elements in the type guide.

Connecting sides:

For an upcharge, the connecting sides can be supplied in the original cover instead of stretch fabric.

Seam appearance:

Decorative, felled or double seams may appear different in fabric and leather versions. For manufacturing reasons,

seams may be left out of the fabric version or replaced with simple seams.

Contrasting thread:

In some leather colours, this model can be supplied with a contrasting coloured thread, at no upcharge. The colours as given can be found on the main sheet of each leather quality in the fabric/leather wagon. Please always specify the contrasting thread number or tonal colours will be supplied.

Recommendation:

We recommend the tables from the model range 40024 as an accessory. As storage place onto the ottomen we recommend a roll mat from model range 10006.

All of the dimensions given are approximate dimensions in cm. We reserve the right to make changes. Dimensions are given as follows: width/depth/height/seat height. The depth measures contain protruding of the overlapping headrest, if the headrest is folded backwards.

Seat depth: ca. **56 cm**

Seat depth with function extendible lying flat surface: ca. **76 cm**

Total height if back is up: ca. **90 cm**

Total depth if seat is extended: ca. **126 cm**

Crease formation:

Fabric and leather stretch to a lesser or larger extent under the influence of body weight, which can lead to the formation of creases in the cover. This visual change does not affect use, function and life span and it is not a defect.

Order checklist

- Structure and cover
- Manually headrest adj. (upcharge)
- Armpart frame design
- Castors for ottomen (upcharge)
- Ottoman panel (order information)
- Motorised seat extension (upcharge)
- LED-lighting white daylight/warm white/blue (upcharge)
- Contrasting thread
- Positioning diagram
